

Questions Submitted by Proposers

RFP #: 2024-001

Computer Aided Dispatch and Automatic Vehicle Location System

Due Date: 6/20/2024

Answered May 29, 2024

How many spare kits shall vendor quote ?

(Section 1.32) TMB requires installation of equipment on 20 vehicles. No spares are required.

How many vehicles could be tentatively available per day for installation ?

Will installation occur during weekdays only, or evenings and weekends as well?

(Section 1.32) Installation shall be performed between 10:30 pm and 6:00 am Monday through Saturday or Sunday 6:00 am through Monday 5:00 am. During this time, the entire fleet will be available.

Are there any routers or modems available in the buses ?

(Section 1.32) There are not currently routers or modems available for use.

Will TMB provide the SIM card and cellular data plan or shall vendor provide it ?

(Section 1.31, 1) 'The SOFTWARE PROVIDER must recommend a solution and/or partner for data transmission and indicate their recommended rate of transmission for a system such as this.'

(Section 1.32, 18, F) 'Proposer must provide a preferred cellular carrier option that will guarantee the functionality of the system hardware and software.'

Do you have existing covert emergency alarm/button installed in the buses or shall vendor provide and install the covert alarm?

(Section 1.32) TMB has a Hanover covert alarm system

Does TMB have an existing GFS static feed?

(Section 1.29) Yes

Will TMB accept a bid bond of a fixed amount so long it is equal or greater than 10% of the submitted base bid value?

(Section 1.36) Yes

Will TMB provide a vehicle breakdown or fleet list?

Yes, Please see below
